ANNUAL REPORTS
OF THE
TOWN ELECTED
and
APPOINTED OFFICERS
OF THE
TOWN OF BELLINGHAM, MASS.

For the Year Ending December 31, 1959

REPORT OF THE BOARD OF SELECTMEN
FOR THE YEAR 1959

The Board of Selectmen composed of Nicholson, Bates and Caya organized for the year with Nicholson named as Chairman. Archille Trotter was appointed clerk. Listed below are the different departments under our direct supervision and what has been done in relation to each department. We also comment on other matters involving the town.

TOWN HALL:

1. Painting of downstairs assembly hall, kitchen and upstairs hall was done.
2. Police and Selectmen rooms were completely renovated for better accommodations to the public and officers.
3. A good sum of money not figured on was expended to correct State Safety Department demands.
4. New chairs have replaced the old settees.
5. A number of storm windows were fitted to all North side windows.
6. The South side of roof which was badly in need of repairs for the last few years was completely recovered.

A saving of \$2,000.00 was realized by your Board of Selectmen who personally appealed to the State Safety Department to reverse a demand by the State Area Building Inspector to install a fire escape.

We recommend that more storm windows be installed this year and next year so that all windows are covered. If repairs and close supervision are carried out each year, your Town Hall will be a credit to our community.

SOUTH COMMUNITY BUILDING:

A new addition to house the Rescue Wagon was built. Here again, repairs and renovations were done over and above our expectations due to the demands of the State Safety Department. We recommend overhead doors for the Fire Station and needed interior and exterior repairs to the building.

NORTH COMMUNITY BUILDING:

1. This building was completely rewired for safety reasons.
2. A new water heater and stove were installed.
3. New tables were added.
4. Outside painting has been completed.

The continuous growth of this end of town makes it necessary that renovations be made. To accommodate this growth we recommend a larger kitchen and larger assembly hall.

NORTH MUNICIPAL FIELD:

The addition of a tennis court is another accomplishment toward making this field enticing to our youth. A new storage building also has been added to protect our field equipment. We recommend improvements to the roadway leading to this field and surrounding land.

HEALTH DEPARTMENT:

1. **Polio Clinic:** Three highly successful clinics were held and we are happy to report that there were no polio cases in town this year. It is our recommendation that similar clinics be held in 1960 to start the latter part of March.

2. **Sewage disposal regulations:** The adoption of these rules and regulations has eliminated one of the most prevalent menaces and source of complaints in this town. The large sub-dividers who choose to build in town will be the ones most affected by these rules. If such regulations had been set up years ago, the complaints now confronting us could have been avoided with prompt positive action by officials of that time.

3. **District Nursing Association:** We are indebted to this association for their untiring co-operation and devotion concerning the problems of health and welfare of Bellingham residents.

4. **Town Dump:** Continuous growth of the town makes it necessary that more stringent rules and regulations be placed into effect to better control the nuisance involved. More money for better control and improvements of the town dump condition is being requested by your Board. It is our hope that in the not too distant future arrangements can be made with the City of Woonsocket for the hiring of their incinerator services.

Down through the years the residents of our town living in close proximity to the Rhode Island State line have been plagued with an industrial nuisance. Our plans for this problem are to work in conjunction with the City of Woonsocket officials to bring this matter to a satisfactory solution.

STREET LIGHTING:

Plans have been made to survey the whole lighting situation in town. Our aim is for maximum lighting at the lowest minimum cost. We hope this will put an end to the constant individual requests for lights as favors. The list of requests every year keeps growing and if it is not checked, it could get very costly and uncontrolled.

POLICE DEPARTMENT:

The purchase of two new cruisers should considerably reduce the operating cost of this department. It is our recommendation that one new cruiser be purchased every year. This will assure us of less costly repairs which are a factor when cars are kept too long.

PETER'S RIVER DREDGING PROJECT:

Three years ago our town matched \$5,000.00 with the state to dredge this river. No initiative was taken to get this project started until this year. The state has now opened all bids for this work and is now in the act of awarding a contract. Reports show that our share will be approximately \$3,000.00 which results in a substantial saving.

WATER SURVEY:

A contract has been awarded by your Board to conduct a water survey that will bring us up to date on what the water system lacks and what it needs to better serve the town. If such a survey had been promoted years ago, a lot of time and money would certainly have been saved. We are proud that it was through our initiative that at long last it became possible. We should study the report (to be made at the annual Town Meeting) of the company doing this survey and act wisely upon their recommendations.

LIQUOR LICENSES BOARD:

It did not take much study and investigation to learn that politics has played a predominant role in the actions of past members. We are sure that if these past actions had not been enacted we would not have to be making an issue of it at this time. To satisfy the demands of a growing community, and best serve the public, we are now in the act of modifying two liquor licenses. We wish to emphasize that the public as a whole plays an important role in what action the Board may take. What this Board is trying to do is to take the "P" out of "politics" and put it back into the word "public".

SCOTT HILL GARDEN HEALTH PROBLEM:

If initiative had been shown by the past Boards of Selectmen at the time this development was started here is a situation that would never have come about. If rules and regulations had been adopted governing sewage disposal such a deplorable condition would not exist today. We are happy to report that after planning and study a much needed code has been formulated. Unfortunately, this code will not solve the existing problem—it will, however, serve as a measure of prevention for the future.

The town through a vote at a special town meeting directed your Board of Selectmen to set up a program of a Betterment Assessment Tax on the homes in this area. A sum of money was specified to be borrowed to finance this project of eliminating a poor waste disposal problem due to the type of soil. Three reasons are now holding up any definite action that can be taken:

1. Technical wording and legal aspects so as not to encounter a stumbling block when this definite plan is set into motion.
2. The weather plays not only a cost handicap, but also a construction handicap at this time.
3. It is evident through a personal poll that home owners in this area have several different ideas as to what they would like done. Our plan is to call a general meeting of all residents in this area and to formulate a solution through majority rule basis.

SUMMARY:

All in all your Board has given considerable time to take the initiative to correct and create, adopt and amend, and plan and preserve for the betterment of our community as well as for the responsibility of our position.

There is much unfinished business to be taken care of and many, many ideas to be initiated for betterment. If we are again favored with the opportunity to serve as your Board of Selectmen, we wish to assure you that the duties of this important office will be carried out and upheld with dignity.

REPORT OF THE INSPECTOR OF SLAUGHTERING

To the Honorable Board of Selectmen:

Slaughtering this past year was light, and was approved according
to the General Laws, and animals sold alive were slaughtered in
licensed establishments.

Respectfully submitted,

LIONEL BOITEAU

Inspector of Slaughtering

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

January 19, 1960

To the Honorable Board of Selectmen:

As Chief of the Fire Department and as Forest Fire Warden, I hereby wish to submit the following combined report for the Fire Department, Forest Fire Department and the Ambulance-Rescue Division.

The alarms answered by the above mentioned departments were as follows:

Fire Department Calls	33
Forest Fire Department Calls	43
Ambulance-Rescue Division Calls	101
	<hr/>
	177

I would like to take this opportunity to thank all officers and men of both stations for their splendid cooperation in maintaining each of the above departments.

This has been a very fine year for the combined departments with only an increase of approximately 11% in the number of calls over the previous year. Even though there has been an increase in the number of calls, there were only a few major fires.

As a result of the above, the departments were in a position to spend over \$5,000.00 to replace worn out equipment and to put all trucks in A-1 mechanical condition.

During the past year, we have rendered Mutual Aid on four occasions. However, since we are assured that we may rely on all adjoining towns to furnish the same aid and protection for our town, it should be considered a good insurance policy.

The new addition to the South Station, which houses the Rescue-Ambulance, is proving to be a valuable asset inasmuch as it takes much less time to get the Ambulance out and "rolling".

The Highway and Water Departments have been most cooperative in keeping the Fire Department informed of all highways and hydrants under repair. This is most appreciated.

To the Board of Selectmen, I wish to express my sincere thanks for their cooperation and understanding in all phases of the Fire Department.

In conclusion, I hope that the Fire, Forest Fire and Ambulance-Rescue Departments will continue to receive the splendid cooperation from all sources in the future as they are now receiving.

I also hope that the Town's People will see fit to purchase a new 750-gallon pumper so that the Department may provide the maximum of protection to lives, homes and properties of our growing town.

Respectfully submitted,

PETER KORNICKI

REPORT OF THE INSPECTOR OF WIRES

January 20, 1960

To the Honorable Board of Selectmen
Bellingham, Mass.

Gentlemen:

I hereby submit the following report for the year 1959:

Thirty-six permits were issued:

(11) permits for new construction at \$3.00 each.

Total receipts were \$83.00.

(25) permits for other than new construction at \$2.00 each.

Respectfully submitted,

ROLAND G. BELLIVEAU

Inspector of Wires

REPORT OF INSPECTOR OF ANIMALS AND MILK

To the Honorable Board of Selectmen:

As required by law, and in accordance with Section 19, Chapter 129 of the General Laws, I inspected all dairy farms and dairies in town and found them satisfactory.

Producers in Bellingham are taking the necessary measures to produce clean and sanitary milk.

Respectfully submitted,

DELPHIS GELINAS

Inspector of Animals and Milk

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen:

Eighty trees had to be cut down; all of these trees were dangerous.

The names of these trees are as follows: 31 elms, 4 maples, 26 black oak, 11 white oak, 6 birch, 2 pine.

Trimming has been done on all the streets in Town. There are one hundred trees remaining which should be cut down, Trimming should be done on all the streets in Town for the safety of the public.

Respectfully submitted,

SYLVIO DALPE

Tree Superintendent

REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen and to the
Citizens and the Taxpayers of Bellingham:

Chapter 81

The following is a report of work done on the various streets and highways of the Town during the year ending Dec. 31, 1959.

The following streets were scraped in whole or in parts:

Geordan Avenue

Geordan Avenue—This small street was done with hot top.

We have been replacing many street signs from the utility poles and installing them on steel poles, as the result of a request from Worcester County Electric Company. There are many more to be done.

In closing I wish to thank the Board of Selectmen, the State Engineers, the Police Department, and all Town officers, citizens and taxpayers of the Town of Bellingham, and I also wish to thank the employees of the Highway Department for their sincere efforts in working faithfully with me to better street conditions in the town and to make the department able to operate efficiently during the past year.

Respectfully submitted,

WILFRED E. ARCAND,

Superintendent of Streets and Highways

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen and to the
Citizens and Taxpayers of Bellingham:

The Planning Board hereby submits its report for the year ending
December 31, 1959.

Two new subdivisions were approved in 1959 by the Planning Board. One of these subdivisions is located on Mechanic Street, and is known as Pinecrest Acres. This subdivision calls for the construction of twenty-nine (29) homes. However, at the end of the year only two homes were in the process of being constructed.

The other subdivision approved by the Planning Board is the one located on Wrentham Street. This subdivision calls for the construction of eleven (11) homes. The name of this subdivision is Rakeville Villa, so named because of the origin or history of that location. Only two homes were completed by the end of the year in this subdivision.

Rakeville Villa, when it is completed, will have a total of 500 feet of road. Pinecrest Acres will have a total of 1,800 feet. These two projects together call for the construction of 2,300 feet of road. It costs approximately \$15.00 a foot to construct a road, and to provide for the necessary drainage and water mains. Because of the fact that the town has adopted the subdivision control law, which requires developers to put in their own streets, water, etc., the town will save approximately \$34,500.00 in these two projects.

During the year the Board was approached on several occasions by developers who were considering the possibility of coming into Bellingham to start new projects or developments. No final action resulted yet from these discussions, except for the two subdivisions mentioned above. From these discussions, however, we have discovered what land they are interested in. The total acreage that these developers are interested in or are in the process of buying amounts to a total of 466 acres. Developers usually will put up four homes to an acre including the necessary streets. The town, therefore, has a potential growth of approximately 1864 homes on the land that developers are presently interested in. It appears at the present that the greatest growth in the construction of homes will take place in the Center section and the North section of the town.

Since the Planning Board only has jurisdiction over subdivisions of two or more lots, there is much construction going on of single units over which the Board has no control or jurisdiction. The law

permits a person to build a home on an existing street without Planning Board approval. We have no records of the amount of such homes being constructed.

When subdividers or developers come before the Board to have a plan approved, the fact that the plan calls for a certain amount of homes does not necessarily mean that that number of homes will be constructed. The rate of construction naturally depends upon the market for new homes. The demand for homes determines the speed or rate of construction. The fact that the Planning Board approves a development does not necessarily mean that all the lots in said development will ever be used.

We the members of the Board are often asked to stop these projects from coming into town, because of our school and water shortage and because of the burden they create on all the departments of the town. The Massachusetts Supreme Judicial Court held that towns could not stop subdivisions on these grounds. It is now illegal to turn down a subdivision because of the fact that it will create an additional school and/or water shortage. There is a shortage of homes, and the government, on both the federal and state level, is doing everything possible to aid or assist in the construction of new homes.

The members of the Board were studying the pros and cons of zoning when the end of the year rolled around. We are spending considerable time studying this problem, and we will have something to report on this matter in the near future.

During the year the Board lost two of its members. Alfred Staves and Robert Hunter both resigned, because of illness. The members of the Board wish to take this opportunity to thank them publicly for the fine service and assistance they rendered the Board while they were serving on it. Mr. Joseph Scolavino of Hartford Avenue and Mr. Raymond Mowry of South Main Street were appointed to fill these vacancies until the next election.

We wish to thank the members of all the Departments in Town for their splendid co-operation during the past year.

Respectfully submitted,

HAROLD COOK, JR., Chairman
R. BERNARD BIRON, Clerk
HENRY H. GUERIN
JOSEPH SCALOVINA
RAYMOND MOWRY

REPORT OF THE WORKMEN'S COMPENSATION AGENT

To the Honorable Board of Selectmen:

During the past year, the Town had three major cases that required physician and hospital care, plus weekly benefits.

All cases were approved by the Massachusetts Industrial Accident Board.

Respectfully submitted,

WILFRED E. ARCAND,
Workmen's Compensation Agent

* Highway Construction Loan in Anticipation of Reimbursement.

During 1959 \$175,000.00 was borrowed in anticipation of revenue. This amount was needed to meet the obligations of the Town until such time as taxes had been received. The bulk of our tax revenue is available about November 1. Borrowing was therefore limited to the period from when money was needed until shortly after November 1. During 1960 it is expected that the interest rates on this type of loan will be somewhat higher than they have been. In all probability the amount borrowed will be approximately the same as in 1959.

REPORT OF THE HEALTH OFFICER

December 4, 1959

Board of Health
Town of Bellingham

Gentlemen:

The following is a report of my work done in 1959 as Physician to the Board of Health for the Town of Bellingham.

Immunization clinics and Vaccination clinics were done throughout the entire Town as per usual. All of these clinics were well attended and were larger than in the previous years. With the co-operation of your Board, we had the largest Polio clinic in this area and it is gratifying to note that there was not a case of Polio reported in the Town of Bellingham this year.

I want to thank everyone for participating in these clinics and also for making them as successful as they were.

I want to thank the members of the Board of Health, the Misses Grace Moran, R.N., and Lucy King, R.N., for their splendid co-operation during the year.

Respectfully submitted,

HAROLD L. SHENKER, M.D., F.A.C.C.

Physician to the Board of Health
Town of Bellingham

REPORT OF THE BOARD OF REGISTRARS

The Board of Registrars organized in 1959 with Anatole Debigare as Chairman and Lionel R. Trudeau as Clerk.

REPORT OF THE FINANCE COMMITTEE

The annual report of the Bellingham Finance Committee is presented herewith:

We wish to thank those who have cooperated with the Finance Committee by bringing their budgets and special articles to us at an early date. This gives the committee the time needed to check into

the various requests in order to make reasonable recommendations. Sub-committees have been working on special articles making on the spot checks.

We also thank all who have attended our meetings and urge anyone interested to be present. Many problems vital to the town are being discussed and we feel the more voters present the better.

The Town is faced with ever increasing problems of more schools, more water needs, and so on. This Committee urges the voters to back up the Planning Board, The Board of Selectmen and other Committees who will be presenting By-Laws to regulate the growth of the Town. We feel these By-Laws are vital to the taxpayers.

REPORT OF THE BOARD OF WELFARE

The Board of Public Welfare submits the following report of the expenditures of the Welfare Department for the year 1959:

During 1959 the Board aided 45 cases. Expenditures for the year decreased from \$23,879.45 in 1958 to \$22,027.60 in 1959.

Appropriation		
Salaries	\$ 950.00	
Expenses	21,050.00	
Refunds	27.60	
		<hr/>
		\$22,027.60
Expenditures		16,095.46
		<hr/>
BALANCE		\$5,932.14

REPORT OF THE BUREAU OF DISABILITY ASSISTANCE

During 1959 this Bureau aided 9 cases. The expenditures of this department are under the control of state and federal governments.

Appropriation	\$3,000.00	
U. S. Grants—Balance 1958	210.56	
U. S. Grants—1959	3,705.00

	<hr/>	\$5,773.59
Forward to U. S. Grants		1,122.00
		<hr/>
BALANCE		\$19.97

REPORT OF THE BOARD OF OLD AGE ASSISTANCE

The Bellingham Bureau has to administer O.A.A. according to the law and to secure back from the state and federal government and other towns as much as possible.

During the year 88 cases were aided.

Appropriation	\$47,860.00	
Salaries	\$6,580.00	
Transfer	1,800.00	
U. S. Grant—Balance 1958	.50	
U. S. Grant—Refunds	184.25	
U. S. Grant—1959	36,131.92	
	<hr/>	\$92,556.67
Expenditures		\$89,486.41

Expenditures		378.39
Transfer to O.A.A., U. S. A.		1,300.00
		<hr/>
BALANCE FORWARD		\$1,520.02

It would appear that the 1960 expenditures will be higher than in 1959 because of the increased rate for the nursing homes and the hospitals.

REPORT OF THE BUREAU OF AID TO DEPENDENT CHILDREN

Appropriation	\$5,500.00	
U. S. Grants—Balance 1958	78.54	
U. S. Grants—1959	4,799.00

		<hr/>
Balance forward to U. S. Grants		\$104.37

It is well to remember that the administration of the various categories of the Welfare Board are governed by rules of the state and federal government. The payments are subject to their approval. Therefore, any increases granted by the state or federal government reflect in the appropriations of the Welfare Department. It will be necessary, therefore, in 1960, due to these increases, to raise more money than was necessary in 1959.

The Bellingham Board of Public Welfare would like to extend its appreciation to the various departments of the town for their co-operation during the year.

MEMORIAL DAY AND VETERAN'S DAY COMMITTEE

Honorable Board of Selectmen:

The Memorial Day exercises were held on Sunday, May 17th, 1959, an early observance; so held in order not to conflict with the Woonsocket Mardi Gras parade which had previously been scheduled for the following Sunday.

The parade and exercises were held in North Bellingham which started at 1:30 P.M. The firing squad of the Post had performed duties at the Memorial Bridge, cemeteries at the Center, the South, the honor rolls in said sections and the Soldiers' Monument at the Center.

Forming at the North School, the parade proceeded to the North Cemetery where exercises were held; returning to the North Community Building and Honor Roll where State Representative William Nourse was guest speaker while Rev. Herbert Hunt conducted the gathering in prayer. Immediately following the ceremonies a buffet lunch was served at the Community Building by the Legion Post and Auxiliary.

Order of parade as follows:

First Division:

Police Department

Car with Gold Star Mothers

Car with aged and disabled

Marshal: Hector T. Beauregard, Commander: Arnold Spencer
Post 218

REPORT OF THE BOARD OF WATER COMMISSIONERS

To the Citizens of Bellingham:

The Board of Water Commissioners, Mr. Wilrose A. Dalpe, Mr. Rosaire J. Brien and Mr. Bruno Santini organized and appointed Mr. Wilrose A. Dalpe chairman, Mr. Bruno Santini clerk, Mr. Aram I. Gariepy water bill collector and Mr. Arthur Ayotte superintendent.

The Board is certainly appreciative of the fine job done by the superintendent and the water bill collector, performing their duties to the best interest of the town.

Water is a precious commodity and the board being fully aware of this fact was forced once again to place restrictions on lawn sprinkling. This was done to insure the citizens of Bellingham proper protection of health and property.

A sample of Bellingham water is forwarded to the State Department of Health monthly for analysis and we proudly report that it is of the finest quality.

The Board of Water Commissioners acknowledge the fine support received from the Townspeople, Town Officials, and various boards during the year 1959.

Water Mains Installation

Lakeshore Drive (Lake Hiawatha) 900 ft. 6-inch cement asbestos pipe (13 takers). (Above installation approved by Town Meeting of March, 1959).

Telemeter

A telemeter transmitter was installed in February, 1959, in the standpipe pit located on So. Main St., and the receiver installed in the Water Department office on Wrentham Road. This instrument records the water level in the standpipe at all times and insures the proper operation of the pumps.

Standpipe

The standpipe on So. Main St. is in need of repairs and painting. I strongly recommend that this work be started in early spring of 1960. Any further delay could be dangerous and prove costly to the Town.

Engineering

The experiences of this past year could be considered a blessing in disguise. The citizens are now very much aware of the necessity of increasing our water supply and hope that some action will be taken.

A consulting engineering firm has been retained to make a complete study of the needs of the water system, and this firm is expected to have a complete report to present for the Annual Town Meeting. I am very hopeful that action on the report will be taken and additional source of supply will be developed.

Responsibility

As the water system of a community grows, the responsibility of the water-works superintendent becomes increasingly greater. The public is becoming more and more demanding as to quality, quantity and increased water pressures. The responsibility does not stop here, because we must be prepared to have a system designed to meet the needs of the time.

In closing I wish to express thanks to the Water Commissioners and to all individuals and agencies for their help and cooperation during the year 1959.

Respectfully submitted,

ARTHUR AYOTTE,

Superintendent of Water

REPORT OF THE SOUTH MUNICIPAL FIELD COMMITTEE

To the Honorable Board of Selectmen:

The major improvement made this year on the South field was clearing the west corner to the road. Valuable help was received from Arthur E. Thomas of Harpin Street. It is planned to close the open brook in this corner next season.

An additional section of the bank opposite the front of the High School was filled and leveled. This is to be seeded in the spring.

It is also hoped to place additional soil adjacent to the playground equipment to make the playground more attractive.

We wish to acknowledge the co-operation of the Selectmen under whose supervision we operated.

TOWN ACCOUNTANT'S REPORT FOR THE YEAR 1959

To the Taxpayers of Bellingham:

The annual Report of the Accounting Department is herewith submitted.

It comprises a Statement of Receipts, Appropriations, Transfers and Expenditures; also a Trial Balance showing balances carried forward to 1960, and a Balance Sheet showing the financial condition of the Town as of December 31, 1959.

The portion of Surplus Revenue certified by the Director of Accounts, as available funds (Free Cash) as of Jan. 1, 1960, is \$3,879.67 which may be used by the Town during 1960. This amount is low due to the fact that receipts were overestimated by \$30,582.92 for 1959.

I am happy to report that many departments held down their expenditures, with the result that \$22,677.77 in departmental unexpended balance were transferred to Surplus Revenue as compared to \$6,447.26 in 1958.

Spot audits were made of the records and receipts of the Sealer of Weights, Inspector of Wires, and Inspector of Buildings, and all payments to the Treasurer were verified.

I request that all departments present their bills for payment, promptly, and at least once a month, so that the Town may take advantage of cash discount; and also notify the accountant of the total amount of the bills sent out for collection, as well as abatements granted, so that the ledger may at all times reflect the true condition of the Town.

To all who extended me their cooperation during the past year, I express my sincere appreciation.

EDMOND E. GENTES

(Recommended by Finance Committee)

ARTICLE 3. On motion of Sarah Wrenn, duly seconded, it was voted to appoint a Secondary School Needs Committee and to authorize this Committee to undertake all preliminary work relative to a study and survey of Secondary School needs in the Town of Bellingham, and to report its findings at the Annual Town Meeting in March 1960; and also to appoint the following men to serve on said Secondary School Needs Committee: Richard Hill and Rene Delannoy from Precinct No. 1, Charles Hooker and Louis Tosches from Precinct No. 2, and Robert Laird and George Hachey from Precinct No. 3, and Anthony C. Minichiello; and also to appropriate the sum of \$1500. for the purpose of defraying any and all expenses to be incurred by said Committee in connection with the aforementioned work; said sum to be raised by transfer of \$535.34 from the unexpended funds in the School Building Committee expense account and \$964.66 by transfer from the Surplus Revenue Account.

(Recommended by Finance Committee)

On motion of Henri Masson, duly seconded, it was voted to dissolve the Warrant at 8:25 p.m.

AGE OF ADMISSION TO SCHOOL

Any child who becomes six years of age on or before January 1st of the year following the term when he wishes to enter school may be admitted into the first grade, but in every case the admission of a child under six shall be dependent upon the fitness of the child to profit by the work of the school, such fitness to be determined by the superintendent. Pupils under seven years of age who have not previously attended school shall not be permitted to enter later than thirty days after the opening of school in September.

NO SCHOOL SIGNAL

The no-school signal will be broadcast at exactly 7:00, 7:15, and 7:30 over WWON in Woonsocket. Also before, during or immediately after news broadcasts over WBZ, WMRC, and WNRI. If there is no school in the morning there will be none in the afternoon.

In the event that schools do not close on any particularly bad day (rain, snow, cold, or other severe weather), parents are requested to use their own judgment in regard to sending their children to school.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Members of the School Committee:

Gentlemen:

I am pleased to present the following as my first annual report as Superintendent of Schools in Bellingham.

This report is intended to interpret to the citizens of Bellingham through our School Committee, detailed information concerning the activities of our public school system during the year 1959. This report also concerns itself with the future of our public schools.

Physical Plant

During the past year fire escapes were erected at South School to add to the safety of its occupants. A new boiler and oil burner were installed at North School since the repair of the replaced boiler would have been indicative of false economy. A new ceiling was installed at Center School and a new fence in the play yard was erected. The exterior trim of Pinecrest School was painted. It is felt that maintenance is not expensive, but repair is.

For some time now, much has been said regarding the adequacy of our present facilities with relation to our growing school population. The erection of Pinecrest School in 1957 has indeed relieved our elementary division's overcrowdedness, at least to a point where the two-platoon system at South School was eliminated. It is not to be inferred that we are without problems in this regard.

After several weeks of study during the early spring of 1959 it seemed certain that if we were to avoid the two-platoon system at our secondary level it would be necessary to house at South School all seventh and eighth graders and two divisions of ninth graders. This we did. Numerical growth and the imbalance of some groups necessitated the withdrawal of fourth graders of the Center District from Pinecrest School to Center School. These actions were taken because they seemed academically prudent and economically sound.

It seems at this writing, in the light of projected enrollments, that in September of 1960 we shall be using every school building to capacity and some sections at the secondary level will be on two-

platoons. It is respectfully suggested that sober thought and sound, swift action be taken in this regard.

In examining the following projected enrollment, your attention is respectfully directed to the fact that we have enrolled in our elementary division 579 pupils as compared with our 1959 enrollment of 594 in our entire system.

This, indeed, is of great significance since indications are that the school population will continue to grow.

Enrollment

The advanced percentage technique has been employed in the calculation of the projection of enrollment.

Census

The annual census and distribution of minors was taken in October, 1959. This includes all residents of the town on October 1, 1959, between the ages of 5 and 16 whether attending school or not. Residents 16 and over are not counted. The figures shown here will not necessarily agree with the figures in the Age-Grade-Enrollment charts. The results of the October 1, 1959, tabulation are as follows:

	5 years or over and under 7	7 years or over and under 16
Boys	183	685
Girls	159	636
	<hr/>	<hr/>
Totals	342	1321
Distribution of Minors:

Totals	342	1321

School Program

Strained enrollment is a factor in our academic program since it affects the flexibility of our program, tends to lend itself to less sensitivity in our schools and does not tend to enrich the educational diet of our pupils.

During the past year a curriculum study has been initiated and it is planned that this be a continuing process, ever evaluating, searching and improving. Through constant research and study we can properly evaluate our methods and goals.

In spite of the inconveniences and limitations brought about by overcrowdedness, it is observed that our staff continues to operate at a high level, and with sincere determination, strive to make our classrooms veritable laboratories of learning.

This year, for registration of First Graders, a new orientation booklet was prepared for the convenience of our new school citizens and their parents. This booklet is entitled "Come Learn With Us" and is calculated to generate a closer understanding among the home, the pupil and the school.

Our system is participating in several of the educational television programs emanating from WGBH-TV, Channel 2, in Boston. Some of the offerings now made and participated in are:

- Music, Grade 2
- Conversational French, Grades 3 and 4
- Literature, Grade 3
- Natural Science, Grade 5
- Physical Science, Grade 6
- Humanities, Grade 11

Standardized tests are administered by the teachers and are interpreted. They serve as a tool in determining the abilities and achievements of our pupils by means of outside criteria. These tests indeed serve as an aid in better understanding our pupils. These, coupled with the implementation of professional techniques make for better academic service for our pupils.

The Staff

The following teachers left the Bellingham School System last June:

- Edward J. Rabaioli, Principal, Pinecrest School
- Carolyn O'Connor, Principal, Center School
- Marjorie R. Murphy, Commercial Dept., High School
- Elaine Baskin, Home Economics, High School
- John Frye, Mathematics, Science, High School

Dante Mangini, English, South School
Ruth Robidoux, Grade I, Pinecrest School
Grace Marks, Grade II, Pinecrest School
Kevin Geoffroy, Grade VI, Pinecrest School

The following teachers were engaged for service in our system as of September, 1959:

Sidney Price, Mathematics, Science, High School
Florence Markee, Home Economics, High School
Pauline Webster, Commercial Dept., High School
Robert Purich, South School
Roger Canestrari, South School
Eunice Sylvestre, Grade I, Pinecrest School
Dorothy Garrahan, Grade II, Pinecrest School
Therese Reilly, Grade V, Pinecrest School
Alan Devaney, Grade VI, Pinecrest School
Ruth Laramée, Grade III, Center School
Ann Marie Lally, Grade IV, Center School

The following transfers and changes were made:

James J. Keough, High School teacher to Principal at South School.
Nancy Leone, teacher to Teacher-Principal at Center School.
Dorothy Marshall, teacher to Principal at Pinecrest School.

During the course of the year our staff has participated in various conferences and conventions.

On October 7 a regional secondary conference was held at the new High School in Grafton and the topic discussed was "A General Overview of the Secondary School Curriculum."

On October 19 a regional elementary conference was held at the New Elementary School in Uxbridge. The theme of this conference was "Current Trends of Promise in Elementary School Practices."

On October 30 our entire staff attended and participated in the annual convention of the Norfolk County Teachers Association.

On November 17 Miss Frances Barrett, Reading Consultant for the Scott Foresman Reading System, conducted a clinic at Pinecrest School. This clinic was attended by our elementary staff together with those of Franklin and Mendon.

It should be noted here that a very large majority of our teachers are presently taking professional improvement courses at the various Teacher's Colleges and Universities in our area.

The School Department is well aware of the demands of today's civilization. Foremost in the minds of those of us who are charged with the responsibility is the awareness of the need for a good sound education for our youth.

Conclusions

My term as your Superintendent of Schools has existed for a short period of time. The office was assumed with considerable awareness of things accomplished and things to be accomplished. It is sincerely hoped that this past year has been a successful and fruitful one. Whatever successes have been achieved must be shared by many people.

I wish to express my sincere gratitude to the citizens of the Town of Bellingham and the various Town officials and agencies for their fine cooperation. I am grateful to the Parent-Teachers Association for their enthusiasm and assistance. My grateful appreciation for cooperation and assistance goes to our principals, supervisors, teachers, school physician and school nurse.

To you, the School Committee, for having had the opportunity to participate in the educational growth of our youth, I express my sincere gratitude.

Respectfully submitted,

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Anthony C. Minichiello
Superintendent of Schools
Bellingham, Massachusetts

Dear Mr. Minichiello:

I herewith submit my eighteenth annual report as Principal of Bellingham High School.

The enrollment for the year, as of October 1, 1959, was 289. This is an increase of 53 students over October 1, 1958. The summary

shows that there were 60 seniors, 50 juniors, 58 sophomores, and 121 freshmen. We were unable to handle this enrollment in our building and as a result 55 freshmen are housed in the South School.

In June, we shall graduate 60 seniors, and we anticipate a freshman class of about 84. This in addition to the 55 freshmen who will move up to us as sophomores, giving us an anticipated enrollment for 1960 of around 314. As you have already made public, this will necessitate double sessions on the secondary level.

The program of studies and the graduation program have been submitted separately and will follow this report.

The passing grade at our school is 70% and the certifying grade is 80%. This means that accredited colleges will not require entrance examinations in any subject in which our students have received a certifying grade. However, this is not to be confused with the College Entrance Examination Board Tests. There are now 250 member colleges, and many other institutions require applicants to submit scores.

There are two types of examinations given by the board. The most important, taken by all candidates, is the Scholastic Aptitude Test. The other is the Achievement Test given in 13 subjects.

The SAT measures basic skills in two areas: verbal and mathematical. It is a test of reasoning ability not of "remembered facts," according to the board's new publication, "College Board Score Reports."

The Achievement Tests, of which students generally take three, do measure what the pupil knows in the field, and also his ability to solve problems based on this knowledge, but only one of three students takes these and relatively few colleges demand them.

Mrs. M. Louise Kelley is our Dean of Girls. She does an excellent job of handling the many problems of our girl students.

Our annual magazine drive was conducted shortly after school opened and was successful because of the efforts of most of the students and the cooperation and generosity of the townspeople. We allotted a share of the proceeds to the students of the South School and we intend to repair old equipment and purchase new equipment for our Audio-Visual Department.

Our annual yearbook, "The Epilogue," was published by the class of 1959 under the supervision of the class advisor, Mr. Emile Niedzwaidek. Our advertising staff received a very kind reception from the business and professional men in our area, and we wish to thank them for their generous cooperation.

The class of 1959 spent their Easter vacation in New York, Washington, and Virginia. The students were chaperoned by their advisor, Mr. Neidzwaidek, and Miss McKenna.

We published our monthly school paper, "The Student Voice," under the sponsorship of the class of 1960. This year the publication is sponsored by the class of 1961.

Our basketball team finished the season with a record of 22 wins and 2 losses. They won the Tri-County League championship and the Class D Bay State Tournament championship. Also, they retained the Woonsocket Trade Board trophy from Blackstone and gained permanent possession of the Dennis W. Howard trophy from Franklin. At this writing our present team has won four and lost three.

Our baseball team won 12 and lost 4 and was tied for the Tri-County Championship by Hopedale. In a special playoff game we lost to Hopedale.

The track team won the South Central Massachusetts League championship for the fourth consecutive year. They also won the Class D championship in the state meeting at Boston.

Our congratulations go to coach Frank Flynn, his athletes, the cheer leaders, and the members of the Athletic Association.

For the second year, a group of loyal citizens banded together to pay tribute to the basketball team with a public banquet. All school officials and cheer leaders were also guests at this affair, at which time the members of the team were presented jackets. The Lions Club honored the team with their annual banquet. The Franco-American Club honored the track team with a banquet and an inscribed plate for their plaque.

We deeply appreciate what these civic-minded people in our community are doing for our students.

Our present plans call for Senior exercises to take place during the week of June 20 as follows: Outing, June 20; Banquet, June 21; Class Day, June 22; Graduation, June 23; Commencement Ball, June 24.

We wish to thank the Police Department and the CD Auxiliary Police Force for the patrol work done at our school activities. Also, Mr. Arcand and the Highway Department for the service rendered to our school during the past year.

To the people of the Town of Bellingham, the Lions Club, the Franco-American Club, the American Legion and its Auxilary, the Rev. Albert A. Bergeron, and the Parent-Teachers Association, we wish to express our thanks for the very fine support given the school.

In conclusion, Mr. Minichiello, I wish to express my sincere appreciation for your co-operative supervision and very helpful suggestions and ask you to convey to the members of the School Committee my thanks for their help in making this year a very successful one.

Respectfully submitted,

REPORT OF THE SCHOOL PHYSICIAN

Mr. Anthony C. Minichiello
Superintendent of Schools
Bellingham, Massachusetts

Dear Mr. Minichiello:

The following is my report as School Physician for the year 1959-1960.

Grades one, four, seven and eleven were examined in compliance with rules and regulations set down by the Massachusetts State Department of Education. A number of athletes from the seventh grade through the twelfth grade were also examined prior to their participation in athletics. The general health of the student body was good with a minimal amount of reportable defects.

I want to thank you, the teachers and the Misses Grace Moran, R.N., and Lucy King, R.N., for the splendid cooperation during the school year.

Respectfully submitted,

HAROLD L. SHENKER, M.D., F.A.C.C.

School Physician

BELLINGHAM SCHOOL NURSING REPORT — 1959

Mr. Anthony C. Minichiello
Supt. of Schools
Bellingham, Massachusetts

May we submit to you the Annual School Nursing report for the year ending December, 1959.

The schools were visited each week when in session. Registration was held at the schools on April 30th and May 1st with the School Nurse in attendance.

During October and November, the School Nurse assisted Dr. Harold Shenker with the physical examinations. Grades 1, 4, 7, and 10 and all boys interested in athletics were included. Notices regarding defects were sent home to parents and guardians by the School Nurse. Many school-home visits were made by the nurse regarding certain defects to guide and advise the parents as to the right course that might be taken.

Again this year on November 2nd Miss King assisted the Norfolk County Health Association personnel with the skin testing of pupils in Grade 11 for tuberculosis. The results were read three days later and positive reactors were x-rayed at the Clinic in Franklin. All the follow-up work was done by Miss King. Excellent co-operation was given her by the parents, which is so gratifying when a health project is most important, and found to be appreciated for its true importance.

Antigen Clinics were held in Bellingham Schools on March 24th, April 14th, May 5th. They were conducted at Pinecrest School on March 26th, April 16th, and May 7th. At Center and North Schools and at Assumption School on March 31, 1959. Ninety-four pre-school children received either one or more of the protective doses against whooping cough, diphtheria, and lockjaw. All pupils in Grades 1, 6, and 11 with signed permission slips were also given the booster dose at one of the Clinics. Dr. Harold Shenker was in charge assisted by the nurses.

Polio Clinics were conducted on June 8th and August 14th at the Town Hall and on June 26th at the Pinecrest School. These Clinics were in charge of Dr. Harold Shenker assisted by the District Nurses and many willing volunteers from the District Nursing Organization and local townspeople. These clinics were held in the early evening for the convenience of working people.

A Vaccination Clinic was held at Pinecrest School on May 26th, and at Center and North Schools on May 28th. Dr. Harold Shenker was assisted by the District Nurses. One hundred and eleven children were vaccinated, the exact number as the previous year.

Many minor injuries were taken care of and pupils taken ill at school were transported to their homes at various intervals by the School Nurse.

Many school-home visits were made throughout the school year upon request of principals and teachers.

Nine hundred and eleven pupils were vision-tested; ninety-one failed, seventy-four were correct referrals. Seven hundred and forty-three pupils were audiometer tested and there were twenty-five failures and twenty were correct referrals.

Vision and audiometer testing consumes many hours of a school nurse's time, and our State Department requests that it be done yearly. Every effort was made to try and complete the program, which at times is difficult when pupils are absent.

We are very grateful for the help given to us by the Lions Club of Bellingham, whose project is Sight Saving. Many hours were given by members transporting children to and from Boston for eye examinations and treatments. The townspeople will be pleased to know that such a wonderful organization is so active in their community.

In the early part of the spring, we had an epidemic of measles and also a mild epidemic of chicken pox. Sore throats, virus infections, and colds were prevalent at intervals.

Pupils were inspected, weighed, and measured during the year.

The following is a report of the work done by the nurse in her visits to the schools in Bellingham:

1. Inspection of pupils	715
2. Pupils inspected for disease	35
3. Pupils recommended for exclusion	106
4. Pupil and nurse conferences	224
5. Home visits	154
6. Teacher and nurse conferences	217
7. Pupils treated for minor injuries	221

In closing, may we thank you, Mr. Minichiello, for your cooperation and assistance; Dr. Harold Shenker, School Physician; Principals and Teachers; and parents for their courtesy and confidence; and the School Committee and Town Officials for their support.

Respectfully submitted,

GRACE MORAN, R.N., Supervisor

LUCY KING, R.N., School Nurse

REPORT OF SUPERVISOR OF MUSIC

Mr. Anthony C. Minichiello
Superintendent of Schools
Bellingham, Massachusetts

Dear Mr. Minichiello:

I herewith submit my annual report as Supervisor of Music in the public schools.

I visit every grade once a week at the High School two periods each week on two days. This makes an exceptionally busy schedule with not much time for extra activities. The first three grades have fundamental theory instruction which give more enjoyment in the singing periods and they also have rote songs with reading from books in grades two and three combined with rhythmic activities, clapping, marching, skipping and so on. Grade three has a good knowledge of musical symbols.

From grades four to eight key signatures are taught, major scales, sightsinging by intervals and for activities, dancing and dramatization. With the help of capable teachers this end is attained, to have good sightsinging before entering High School and part-singing. Sixth, seventh, and eighth grades do splendid work in part-singing.

Conflicting club meetings, make-up tests, class meetings make it rather difficult to get the Glee Club at the High School together very regularly, but in spite of this we managed to have a very creditable Christmas program and skit of which any High School could be proud.

The seventh grade and Glee Club prepared a very fine program to sing at the Crech on Boston Common.

In closing I wish to thank you, Mr. Minichiello, for your helpful cooperation, the Principals and Teachers and members of the School Committee for their kind assistance.

Respectfully submitted,

HELENA C. DOWNEY,
Supervisor of Music

REPORT OF THE STATE AUDITOR

February 11, 1960

To the Board of Selectmen
Mr. Thomas E. Nicholson, Chairman
Bellingham, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Bellingham for the year ending December 31, 1959, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

HERMAN B. DINE

Director of Accounts

Mr. Herman B. Dine
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Bellingham for the year ending December 31, 1959, and submit the following report thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and checked with the books of the town accountant and the town treasurer.

The books and accounts in the office of the town accountant were examined and checked. The appropriations and loan authorizations, as entered in the ledger, were compared with the town clerk's records of financial votes passed at town meetings, while the transfers from the reserve fund were checked with the finance committee's authorizations. The general and appropriation ledger accounts were analyzed, a trial balance was taken off, and a balance sheet showing the financial condition of the town on December 31, 1959 was prepared and is appended to this report.

The town treasurer's books and accounts were examined and checked. The cash book was footed, and the cash balance on December 31, 1959 was verified by reconciliation of the bank balances with statements furnished by the banks of deposit and by actual count of the cash in the office.

The treasurer's cash receipts were analyzed and compared with the town accountant's records, with the records in the several departments collecting money for the town, and with other sources from which money was paid into the town treasury. The payments entered by the treasurer were checked with the selectmen's warrants authorizing the disbursement of town funds and with the town accountant's books.

The payroll deductions for Federal and State taxes, Blue Cross and Blue Shield, and group insurance were examined and reconciled with the town accountant's ledger controls.

The maturing debt and interest payments were proved with the amounts falling due and checked with the cancelled securities and coupons on file.

The records of tax titles and tax possessions held by the town were examined and checked. The taxes and water liens transferred to the tax title account were compared with the tax collector's books, the redemptions were checked with the treasurer's cash book, and the tax titles and tax possessions on hand December 31, 1959 were listed, reconciled with the town accountant's ledger, and checked with the records at the Registry of Deeds.

It is recommended that foreclosure proceedings be instituted on all tax titles held by the town over two years, as required by the provisions of Section 50, Chapter 60, General Laws.

The savings bank books representing the investments of the trust and investment funds in the custody of the town treasurer were examined and checked. The income was proved and all recorded transactions were verified.

The books and accounts of the tax collector were examined and checked in detail. The tax and excise accounts outstanding at the time of the previous audit, as well as all subsequent commitments, were audited and compared with the warrants issued for their collection. The recorded collections were compared with the payments to the treasurer, the abatements were checked with the assessors' records of tax titles held by the town, and the outstanding accounts were listed and proved with the town accountant's ledger.

The records of departmental and water accounts receivable were examined and checked. The charges were proved, the recorded collections were verified, and the outstanding accounts were listed and reconciled with the respective ledger controlling accounts.

The outstanding tax, excise, departmental, and water accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

It is recommended that the assessors promptly notify the tax collector of all abatements granted, and that they report these abatements to the town accountant at least monthly.

The records of the town clerk pertaining to dog and sporting licenses issued were examined and checked. The payments to the town treasurer were checked with the treasurer's recorded receipts, and the payments to the Division of Fisheries and Game were proved with the receipts on file.

The town clerk's records of financial votes passed at town meetings were checked in detail with the town accountant's ledger accounts, and compared with the amounts provided for by the assessors in the 1959 tax rate.

The surety bonds of the town officials required by law to furnish them were examined and found to be in proper form.

The records of cash receipts of the selectmen, the sealer of weights and measures, and the building and wire inspectors, as well as of the police, public welfare, school, and library departments, and of all other departments collecting money for the town, were examined and checked. The payments to the treasurer were verified, and the cash on hand in the several departments was proved by actual count.

In addition to the balance sheet, there are appended to this report tables showing a reconciliation of the treasurer's cash, summaries of the tax, excise, tax title, departmental, and water accounts, as well as schedules showing the condition and transactions of the trust and investment funds.

During the progress of the audit cooperation was extended by all town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ

Assistant Director of Accounts
